Associated Press Dispatch. ENGLISH, Jud., July 5 .- Startling reports of a desperate riot at Siberia, rerry county, are coming in by telephone and couriers from the scene of the encounter. Dr. Wm. Siberia is but a hamlet of a few dozen straggling houses and a Roman Catholic church, the congregation of which is composed of Germans. They are a simple and noffensive people, but have been gratly annoyed recently by persons oposed to their religion. Yestperday they planned to enjoy a great picnic in the woods near the village. The entire population turned out to attend the picnic and all went smoothly enough until several gangs of disturbers appeared on the scene and began to make

There was a number of booths on the grounds where intoxicants were served. These were liberally patronized by the intruders, who soon began to insult the Germans and their wives. The priest, who was present, counseled his people to avoid trouble, if possible, and to pay no atention to the jeers of the half-drunken marauders. Mistaking this tolerance for cowardice the intruders became bolder and soon precipicated a fight, which, in a few moments, as sumed the proportions of a desperate riot. in which everybody took part. Clubs, chairs, and beer bottles were brought into play and the peaceful pienic was immediately transformed into a great group of struggling, cursing men and screaming women.

Samuel Wilson, a leader of the outsiders, was armed with a huge knife, which ac wielded like a madman, stabbing and cutting many persons. He was finally opposed by a sturdy German, who was more than a match for him, until Wilson plunged the knife into his neck. As the German fell back his wife sprang through the crowd and dealt Wilson a terrible blow with a beer bottle, crushing his skull. During the melee one of the intruders kicked a woman, about to become a mother, killing her child

and fatally injuring her. It soon became apparent to the attacking party that they would be annihilated if the ight was continued, and after their leader was stricken down they ran hastily through the woods to where their horses were tethered and escaped, leaving three of their tumber on the ground for dead. Cots and itters were hastily improvised and the dead end wounded were removed to the church n the village, and all the physicians in the neighborhood called to the scene, Dr. Lomax, a surgeon of White Sulphur Well. and his two assistants were kept busy all se one night caring for the wounded. Dr.

Lomax states that he saw fifty-four injured, and believes that several of them will die. He says the fight began at 3 o'clock in the afternoon and continued for

Wilson, the leader of the rioters. Nearly all the rioters are known, though it is certain that in the party there were a number of rough characters from the district lying near the Ohio river. Many of the rioters carried buggy spokes concealed in their sleeves, and used them with terrible effect, sparing neither age nor sex. The local magistrate has sworn in nearly every man in the community as a deputy to preserve the peace, as it is feared the rioters will secure reinforcements and return for the bodies of their comrades, one of whom is dead and the other probably fatally in-

Nephew of Sir Edwin Arnold Killed by the Former's Wife-The Cloumel Witch-Burner Convicted.

CHICAGO, July 5 .- Frederick Hellman, a well-to-do mason contractor, murdered his wife and four children last night and then killed himself. It was at first supposed that Hellman and his wife and children met death by accident, but it developed at the coroner's inquest this afternoon that the wholesale murder was calmly planned, and that the man intended to kill himself and end the existence of the members of

The tragedy took place in a little brick prosed the act was that of a madman as Hellman ten years ago suffered a sunstroke, from which he never completely recovered. Suspicion was first aroused this morning by the fact that the house in which the Hellmans lived was tightly closed long after the usual hour for the family to be astir. The mother and married sister of Hellman, who lived next door, attempted to break into the house, but were unable to do so. They finally managed to force an entrance through a window in one of the bedrooms, and the dead bodies of all the family were found. The house was so full of gas that the two women were nearly overcome. It was at once concluded that the deaths had been the result of an accident, and the police, when they came, adhered to the same opinion.

At the inquest this afternoon, however, au entirely different complexion was given the affair by Charles, a brother of Hellmann. He produced a letter written by the murderer and suicide late on the previous evening in which he clearly stated his purpose of killing himself, although he gave no intimation of the fact that he was meditating the deaths of his family. He spoke of the window through which the women had crawled as the only way in which his brother could gain admission to the house, and said he had left it open for that purpose. The brother had not received the letter until afternoon, and came

directly to the inquest. The position of the bodies at the time ready to move to Elkhorn at a moment's | they were found indicated that the two boys and the older girl fought desperately to leave the room after the father had turned on the gas. CHICAGO, July 5. - The police believe now that the mystery surrounding the three thousand dollars' worth of torn money found on the lake shore, between Twenty-second and Twenty-sixth streets, a week ago, is solved. Omaha's Mystery Explained. OMAHA, Neb., July 5 .- The trunk murder mystery, which has disturbed all Omaha since Tuesday, was cleared up to-night when the frightfully mutilated body of the victim, John E. KILLED BY TURKISH OFFICERS. Latest from Armenia Concerning Cycler Lenz's Murder.

PITTSBURG, July 5 .- Another letter confirming the death in Armenia of Frank Lenz, the Pittsburg wheelman who was making a tour around the world, has been received here by T. P. Langhans from a missionary is not given, because his life would be endangered if the Turkish government should learn that he was writing on the case. The missionary, however, is working with Sachtleben, the St. Louis man who was sent out in search of Lenz. The letter states that they have discovered that Lenz was murdered by Turkish cavalry officers high in the service of the Sultan, and for that reason the work is attended with great danger. The bell of Lenz's bleycle was found at Teharouk. His mirror, mail box and another box which he is known to have carried were found in the river between Shanria and Musersta, while the tires of his wheel were discovered at Tehelkni, where a Kurd was using them for a saddle girth. The letter states further that Sachtleben could find the remains of Lenz if it were safe to undertake the work, but owing to the high standing of his murderers the task is too dangerous, and all further investigations will have to be abandoned unless the government of the United States interferes and gives protection.

Carroll D. Wright on the Condition of the Eleventh Census-Ex-Consul Waller in a Sad Plight.

WASHINGTON, July 5 .- Postoffice Department officials are a good deal disturbed by the escape of the three postoffice thieves from the Ludlow-street jail, New York. Their arrest had been effected only with a great deal of trouble, and it was a heavy disappointment to learn that they were once more at liberty. Postmastergeneral Wilson was indignant at the turn of affairs. "I do not know just what the legal aspects of the matter are," he said, 'consequently, I cannot say whether any claim for money damages can be made against any one. The question of responsibility will surely be investigated. I will do all I can to effect the rearrest of the men. I have offered a reward of \$1,000 each for their capture. The postoffice inspectors and any one who desires to get have written to United States District Attorney McFarland at New York on the subject." Following is Postmaster-general

Wilson's letter in full: "Dear Sir-This department is in receipt of your telegram of to-day advising the offer of a reward for the recapture of the postoffice burglars, Killoran, Allen and Russell. I have read with surprise, not un-mixed with a much stronger feeling, the report in this morning's New York papers of their escape from Ludlow street jail, but cannot avoid the conclusion that some-body is criminally responsible for that escape. Knowing the desperate character of these criminals and their long and successful careers as thieves and burglars, as also the plentiful means which they were reported to have at their command for corruption purposes, I have been anxious about their custody since I learned that they had been permitted to change carceration, with the evident purpose of thwarting identification when arraigned tor trial. Their record as postoffice burglars is a long and dangerous one, and this department was greatly pleased and relieved when it learned that, after months of patient and expensive pursuit, they had finally been hunted down and arrested. "In accordance with your request I have offered a reward of \$1,000 for the recapture of each of them, but while I believe such action on my part proper and necessary, I submit to you that those whose carelessness or criminality has made it necessary should be held to a strict accountability for the affair."

Screw Loose Somewhere. NEW YORK, July 5 .- Killoran, Russell and Alien who yesterday escaped from the Ludlow-street jail, where they were confined, pending extradition to Illinois, for the alleged robbery of the Springfield postoffice are still at large. A young man named Schumacher, known as "Spider Joe," living near the jail, who witnessed the departure of the prisoners from Ludlow-street jail, is authority for the statement that women were permitted to associate with the escaped fugitives in the reception rooms, where bagatelle and dominoes were played. 'Spider Joe' "asserts that he saw two women in the reception room with the prisoners on the night of June 23, who remained a considerable time, apparently interested in card-playing which was going on at the time. Warden Raabe has stated that the prisoners were especially guarded and ocked in their cells early in the evening and were not again permitted to emerge from them until next morning. This is in direct variance with "Spider Joe's" statement, which, if true, indicates the means by which the prisoners may have secured revolvers with which they buildozed the keepers in effecting their escape. The women, two in number, were again with the prisoners in the reception room on last Wednesday evening and "Spider Joe" and wo of his companions watched their movements from the street for fully two hours. "I was not surprised," he said, to-day, "when I saw the three prisoners rush out of the door armed to the teeth and up to Broome street, where they separated. My attention was first attracted by the noise caused by the breaking of the half-inch plate glass in the door leading from the

which they passed." PROF. MOORE'S POLICY.

Aim of the New Chief of the Weather WASHINGTON, July 6 .- Prof. Willis L. Moore, of Chicago, the newly-appointed chief of the Weather Bureau, took charge of his office to-day. Prof. Moore's policy in directing the work of the Weather Bureau was outlined in an interveiw to-day. The principal aim of the bureau now will be to concentrate the work on forecasts. Prof. Moore is an expert in this line and will make every effort 'to increase the accuracy of the predictions. "This," he explained, "will be accomplished by the most rigid adherence to the merit principles which have prevailed throughout Secretary Morton's administration of the department. Every man will be assigned to duties governed by his competency and every recemmendation by me will be based on civilservice principles. The service is now in its embryotic state and general application of practical principles will tend towards a material improvement. We cannot predict just when rains will occur always, out there is no excuse for failing to forecast severe changes in the weather and remarkable atmospheric disturbances. Forecasting severe weather changes i conceive to be the object of the office and in this lirection the work will be broadened and steadily improved. Forecasts should be made of severe storms, cold waves or re-markable atmospheric changes at least welve hours in advance and one of such orecast sometimes more than pays the actual entire cost of the office up to date. The successor to Prof. Moore in the forecast station in Chicago has not been se-lected as yet. Prof. H. J. Cox, the as-sistant chief, is temporarily in charge, but he will doubtless be relieved within a few lays There is little doubt that Edward B. Garriott, now in charge of the forecastng division of the Sureau in Washington and who has had nearly twenty years' experience in the service, will be app hough Park Morrill, now national forecast official and formerly in charge of the Atlanta, Ga., station, is under consideration

THE ELEVENTH CENSUS.

It Will Be Completed by the End of the Year-Mr. Wright's Views. WASHINGTON, July 5 .- Discussing the prospect of concluding the work of the eleventh census Superintendent Wright today said that there still remained only one table to complete, with the deductions to be drawn therefrom, and then this finishes. the work of the bureau off the last census. Mr. Wright also stated that the printing of the report was well under way, and that the Public Printer had assured him that it would be completed by the close of the present year. "If," continued the superintendent. "this promise is made good the complete report of the eleventh census will be in the hands of the public two years and a half sooner than was the report of table yet to be prepared is one fe-
